Report & Learning Outcome

PVE Committee conducted a session for Slow and Average learners for the Computer Science department. The session was designed to give complete idea about New Education Policy, paper patterns and Marking Schemes. Overall 35 students actively participated in it.

- (1) On the basis of shared PPT students understood the new paper patterns and knew about writing style, highlighting and how to conclude the answers at the outset of practical learning.
 - (2) Through this session they understood time management and stress management skills.
 - (3) They learnt to showcase their answers and present information in the comprehensive manner.
- Overall the students developed capacity to solve the question paper.

Remark and learning outcome

PUE committee organized the session for Slow and Average learners of the Humanities Department on 18/8/23 at 1:10 pm. This session helped students to get mastery over their weakness.

- ① This session was helpful to aware students about their less performance in the annual exams.
- ② It promoted self awareness to know about the subjects in which the students are least interested, or fearful to understand.
- ③ Through the various techniques and strategies one can easily develop keen interest in the subject in which earlier they were not comfortable.
- ④ Visit to library, remedial classes, swipe lectures and personal counselling will be helpful to score good marks in the annual exams. This way the discussion and lecture was very beneficial to the slow learners.
