SIGHT AND VISION help to connect people with their surroundings. Our world is filled with an extreme variety of colors, shapes and patterns. Sight gives us the ability to perceive movement, and vision gives us the ability to make assessment about that movement. For a Blind Person, life's challenges are so many and are part of their daily chores. Yet I have rarely seen them avoiding them. On the contrary, I have seen them actively seeking and adopting new assistive devices and gadgets that help them overcome these challenges.

Nukkad Natak Report & Learning Outcomes

Nukkad Natak on Voter Awareness under the flagship programme of Election Commission of India, SVEEP (Systematic Voter Education and Electoral Participation) was organised by the students of St. Paul Institute of Professional Studies Indore at Chappan Dukkan on 23rd September 23. The students tried to explain the residents of Indore that each and every vote counts for a better future of our country. The students also informed about voting and how to be a responsible voter. A lot of people want to vote, but many are not aware of its need and how to cast it. This is where voting awareness comes into play. The idea of voting awareness is to help people understand the importance of voting. Voting is an important way for voters to control their government. It is a method for citizens to express what they want from their leaders by raising awareness about voting. This will lead to better governance and what everyone wants - a democracy that is free, fair and representative.

Participation in Smart Relay Report & Learning Outcomes

Smart Relay on Voter Awareness under the flagship programme of Election Commission of India, SVEEP (Systematic Voter Education and Electoral Participation) was organised by the students of St. Paul Institute of Professional Studies Indore from Chappan Dukkan to Rajwada was organised on 24th September 23. The students tried to explain the identities of Indore that each and every vote counts for a better future of our country. The students also informed about voting and how to be a responsible voter. A lot of people want to vote, but many are not aware of its need and how to cast it. This is where voting awareness comes into play. The idea of voting awareness is to help people understand the importance of voting. Voting is an important way for voters to control their government. It is a method for citizens to express what they want from their leaders by raising awareness about voting. This will lead to better governance and what everyone wants – a democracy that is free, fair and representative.

Revenue Collector Mr. Ilaiya Raja T recognised the efforts of the students and felicitated them with the certificates.
