Policy for Energy Conservation

Objectives of the policy

- To ensure the conservation of various sources of energy.
- To promote sustainable development and inculcate such habits among the members.

Statement of Policy

It is the duty of all the members of St. Paul Institute of Professional Studies to abide by the following energy practices:

1. To be conscious about the energy crisis which our country is facing.
2. To switch off all the lights and fans when not in use.
3. Uses of efficient electric and lighting equipments in order to reduce the consumption of electricity.
4. To shut down the computer systems when you leave the Computer Labs, Language Lab, AV Room and Faculty Rooms.
5. All are requested to take care of the computer systems and other electronic gadgets and electrical appliances to prevent the energy loss.
6. To use Air Conditions and Air Coolers when it is necessary.
7. To inform the concerned authority on finding any lapse in the conservation of energy.
8. To create awareness about the conservation of energy among the people we belong.
9. To conduct Programmes pertaining to the conservation of energy in PD and related Committee activities.
10. It shall be the duty of the institute to ensure the timely maintenances of the gadgets and appliances.
11. To use bicycles or electric scooters or public transportation system or vehicle pooling in order to save energy.
