## Policy for Green Practices

### Objectives of the policy

To promote green practice initiatives.

To make aware about the importance of trees and their role in lives.

To create a positive and protective attitude towards environment.

### Statement of Policy

Nature is our provider and protector and conservation trees and environment is an integral part of our educational system and we give it priority through our green policies which are:

1. To be conscious about the importance of nature and its conservation.
2. To involve in the in-campus and beyond campus plantation activities.
3. To have a stewardship attitude towards trees and environment.
4. To keep the college campus clean and tidy.
5. To keep college campus as a polythene free zone.
6. To make use of College Enlist Digital Library facility to reduce the use of paper.
7. To abide by the green practices propagated in the college campus.
8. To make our festivals, birthdays and other celebrations environment friendly.
9. Not to use plastic files for the assignments and projects instead to use the environment friendly college files.
10. To use bicycles or electric scooters or public transportation system or vehicle pooling in order to save energy.
11. To create social awareness about the ideal green practices.
